COMPANY PROFILE

Panidis SA was founded in 1974 by Mr. Grigoris Panidis with the distinctive name "Macedonian brass". The company's initial engagement was the processing and engraving of brass products, but soon it focused on the design and production of aluminium parts. Over the years and with the entry of the second generation in the company's administration, from a family company with limited human resources, it has become one of the leading companies in the Greek market, with hundreds of customers and exports to 25 countries in 3 continents. Until today, continuous investment in know-how and engineering equipment coupled with high-skilled personnel, suitably trained and with years of experience in manufacturing, have established Panidis SA as one of the most modern and dynamically developing Greek producers in the aluminium parts industry.

The high quality of all the products and services it provides, the highly competitive prices and the continuous research for the design and production of new innovative products, ensure a greate future development for Panidis SA, in the domestic but also international market for aluminium parts.

The vertical production installations, equipped with state-of-the-art CNC machining centers and lathes and with modern anodizing and powder coating units, produces 100% Greek products, with a wide range of accessories for aluminium systems, glazing accessories and aluminium railings. All products are constantly on stock and can be promptly delivered throughout Greece and abroad.
