

**COMPANY  
PROFILE**

# HISTORY

**1974**

PANIDIS SA is founded by Mr. G. Panidis

**1985**

Market Introduction of Aluminum Railings System (MAK SYSTEM by PANIDIS SA)

**1993**

Establishment of Athens Premises (Warehouse & Showroom)

**1995**

Upgrade production capacity of Architectural Aluminum components

**2000**

Expansion of Headquarters premises with additional 3.500 m<sup>2</sup>

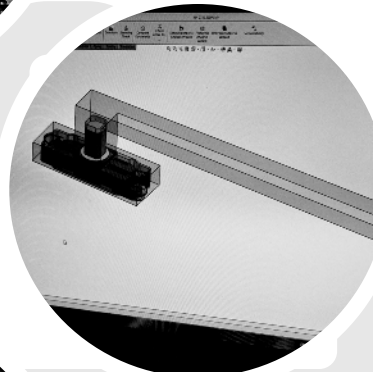

**2002**

Installation of powder coating plant

**2006**

Investment in CNC Machining Centers

**2007**

Enlarge Market penetration by developing Custom Made Solutions

**2009**

Installation of new state-of-art Anodization Plant

**2014**

Launching new glass fittings portfolio

**2018**

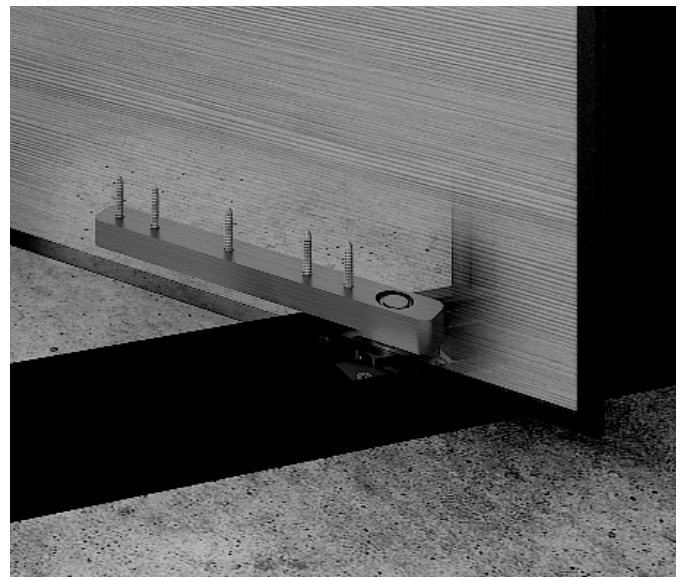

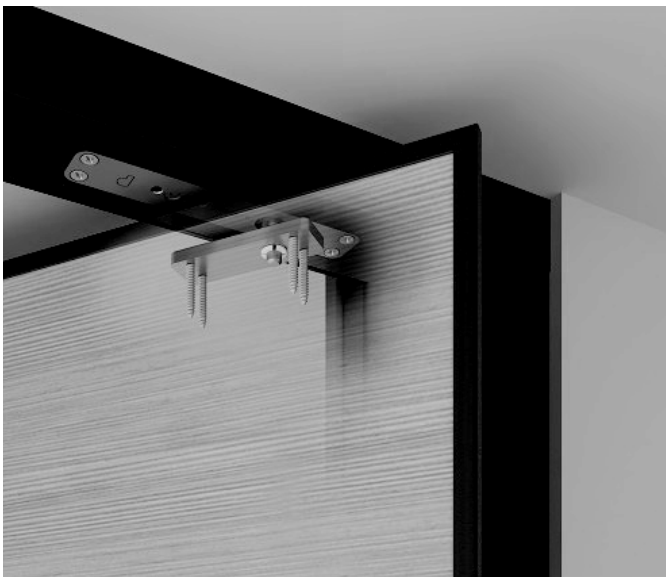

Expand production capacity/ additional investment in new CNC Machining Centers

# PRODUCTS

The primary objective of PANIDIS S.A. in its continuous pursuit of excellence within the international competitive landscape, is to uphold superior standards of quality across its products and services.

To achieve this goal, the company has implemented a comprehensive quality management system that encompasses both the production and trade of its products and systems.

## ■ PIVOT Mechanism Systems

## ■ Glass systems

■ Glass Accessories

■ Concealed Hinge Systems

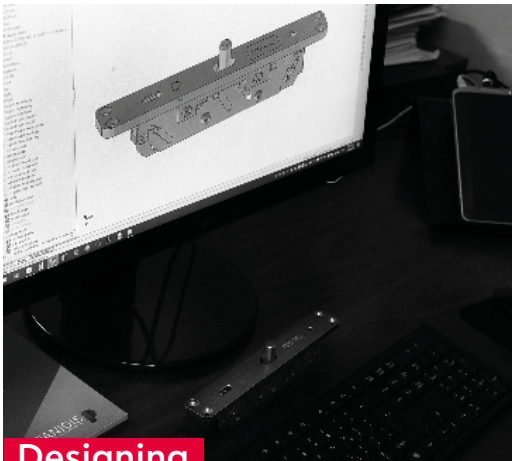

■ Pull Handles

■ Lift and Slide Handles

# CUSTOM SOLUTIONS

Experience architectural hardware innovation with PANIDIS S.A. From initial design to prototyping, efficient planning, and precision manufacturing, our dedication to excellence ensures tailor-made solutions that adhere to the highest global standards.

**Designing**

We start by comprehensively understanding your vision. Our engineers collaborate closely with you to craft distinctive architectural hardware, ensuring each product precisely aligns with your preferences and system requirements.

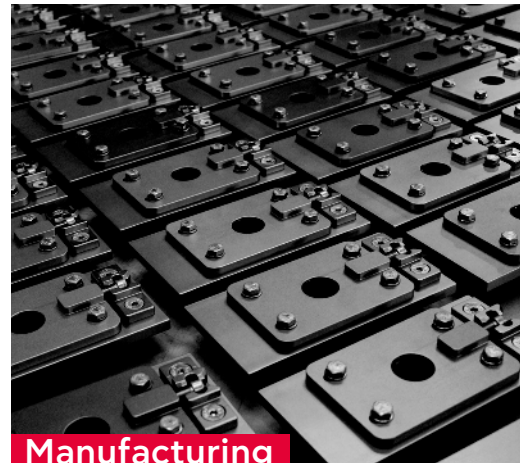

**Prototyping**

Meticulous prototyping is the next step in our process. We craft prototypes for your specialized architectural hardware, evaluating and refining them to meet the highest standards of quality and functionality. This phase ensures precision in every detail.

**Planning**

Efficiency and precision take center stage in our planning phase. We meticulously schedule and manage every project, ensuring timely delivery and adherence to your specifications. Our streamlined approach guarantees the success of your project.

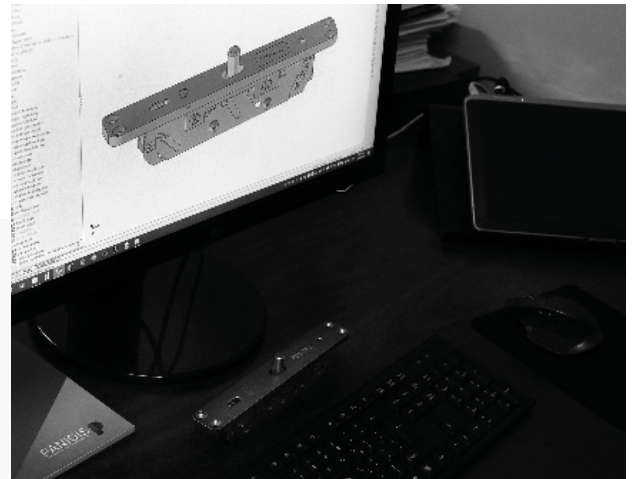

**Manufacturing**

The heart of PANIDIS SA lies in our manufacturing prowess. Equipped with advanced CNC machines and production lines, our manufacturing process adheres to the highest international standards. Our Quality Control department guarantees the integrity of the final product, ensuring impeccable finishes and timely deliveries worldwide.

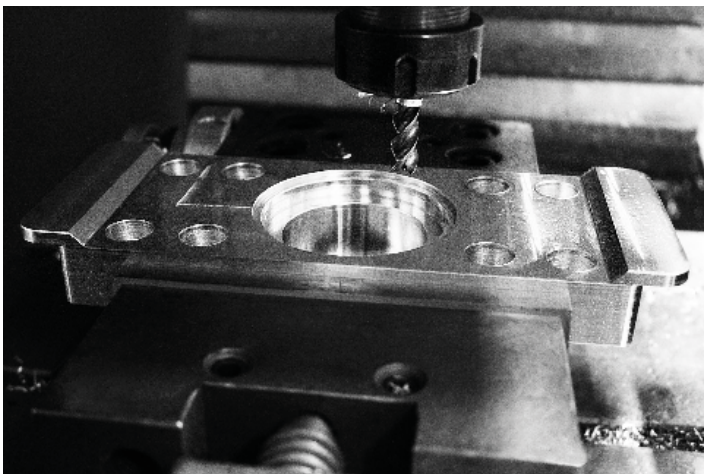

# FACILITIES

**PANIDIS S.A.** owns production facilities spanning a total of **7500m<sup>2</sup>**, located in Thessaloniki, Greece. Our contemporary production system, in combination with our experienced and specialized staff, ensures high productivity rates and production flexibility, all while consistently guaranteeing top-quality products. Our well-organized warehouses enable us to maintain sufficient stocks of all our products, facilitating swift production to meet customer demands efficiently.
